PROFESSIONAL PROFILE

CompTIA Security+ and Microsoft Azure Fundamentals certified professional with 12+ years' experience in regulated, customer-facing industries. Built four practical GitHub GRC projects covering ISO/IEC 27001, ISO/IEC 42001, NIST AI RMF and the EU AI Act, producing risk assessments, control mappings, audit records and governance evidence. Brings strong stakeholder communication, experience handling sensitive information and hands-on exposure to cloud security and access controls.

CERTIFICATIONS

CompTIA Security+ (Apr 2026) | Microsoft Certified: Azure Fundamentals, AZ-900 (Sep 2026) | IBM SkillsBuild Cybersecurity Fundamentals (Mar 2026)

RELEVANT GRC AND SECURITY SKILLS

ISO/IEC 27001:2022 ISMS • Risk registers and treatment plans • Statement of Applicability • Annex A control mapping • Audit evidence and management review • Incident response documentation • UK GDPR and FCA awareness • Microsoft cloud security fundamentals

SELECTED CYBERSECURITY PROJECTS

ISO/IEC 27001:2022 GRC & ISMS | simulated UK consultancy

- Defined ISMS scope and assets; produced a risk register, risk treatment plan and Statement of Applicability aligned to Annex A controls.
- Created supporting incident response, business continuity, internal audit and management review records with traceable evidence.

NIST AI RMF 1.0 | simulated customer-service chatbot

- Assessed prompt injection, bias, privacy leakage, hallucination and model drift; documented AI risks, treatments, red-team and bias assessments and requirements traceability.

ISO/IEC 42001:2023 AI Management System | simulated

- Developed AIMS scope, policy, governance roles, AI risk and impact assessments, objectives, Statement of Applicability and audit/management review evidence.

EU AI Act compliance | simulated chatbot

- Assessed risk classification and Article 50 transparency requirements; produced compliance-gap analysis, GPAI due diligence and incident reporting documentation.

DirtyPhish | Cybersecurity Arcade & Knowledge Hub

- Created a public-facing platform with original interactive security games and educational articles, translating phishing, identity, cloud and defensive security concepts for non-technical audiences.

PROFESSIONAL EXPERIENCE

Founder | Local Edge Tech (ProAnswerAI) | 2025 - Present

- Designed and deployed AI voice-agent solutions using ElevenLabs, Vapi and Azure/AWS; worked with secure API integrations, IAM/RBAC and HTTPS/TLS.
- Assessed legacy codebase vulnerabilities and considered data protection obligations as an ICO-registered data controller.

Car Finance Account Manager | Vizion Autos | Oct 2024 - Mar 2025

- Handled sensitive financial information within FCA/GDPR procedures and identified potential fraud indicators during lead qualification.

Life Insurance Adviser | LifeSearch | Jul 2024 - Oct 2024

- Maintained confidential customer records, explained complex insurance terms and worked within FCA and data protection requirements.

Automotive Sales Executive (multiple dealerships) | Oct 2013 - Jun 2023

Sytner BMW (Dec 2018 - Jun 2023); Stephen James BMW (Oct 2017 - Dec 2018); Audi (Jun 2016 - Aug 2017); Lexus (Oct 2015 - Jun 2016); Vauxhall (Oct 2013 - Oct 2015).

- Managed sensitive customer records, FCA-related documentation, CRM follow-up and relationships across regulated vehicle sales.

Sales Consultant, Fire & Security | ADT Fire & Security PLC | Jan 2012 - Aug 2013

- Advised customers on physical and electronic security, including alarm monitoring and access-control solutions.

MICROSOFT APPLIED SKILLS & PRACTICAL SECURITY LABS

Administer Active Directory Domain Services (May 2026): Configured domain controllers, users, groups, organisational units and Group Policy Objects in an assessed lab.

Secure Azure Services and Workloads with Defender for Cloud Regulatory Compliance Controls (May 2026): Reviewed vulnerabilities, endpoint and network exposure; configured Just-in-Time VM access and used Log Analytics for investigation.

Get Started with Cloud Security and Monitoring Tasks (May 2026): Worked with Azure Firewall, Key Vault and Azure Monitor.

Additional Microsoft Learn training (40+ hours): Entra ID, Conditional Access, RBAC, Defender XDR, Microsoft 365 administration and Zero Trust. Microsoft Learn profile: learn.microsoft.com/en-gb/users/kofiamanquah-6436/

TOOLS & EDUCATION

Azure, Microsoft Entra ID, Defender for Cloud/XDR (labs and training), Active Directory, GitHub, Markdown, Excel/Google Sheets, Microsoft 365 and Google Workspace.

AVCE Advanced Business Studies (A-Levels); 10 GCSEs including English and Mathematics (grade C or above).
